INNOVATIVE WOOD SOLUTIONS

# HYDROPLUS CLEAR WATERBORNE TOPCOAT FOR EXTERIORS AZ8130/00

Sayerlack presents a unique opportunity to produce exterior joinery with a waterbased clear finishing system.

The possibility to produce exterior joinery which maintains the natural colour of the timber has been a wish from the market for many years. Sayerlack R&D laboratory has now developed a clear one-component product with exceptional exterior durability against the elements, that will last for many years.

Clear lacquer **AZ8130/00** provides this unique finishing quality and should be used in combination with Hydroplus clear base stains and midcoat, depending on the substrate and desired surface. Typical product combinations for both softwood and hardwood can be as follows.

This coating system maintains the natural beauty of the wood, and preserves it from any weather condition.

PRODUCT TYPE	Base Stain	Midcoat	Top	Top (optional)
PRODUCT CODE	AM0504/00	EM0475/00	AZ8130/00	AZ8130/00
APPLICATION	N/A	150 µm	150 µm	150 µm

TECHNICAL CHARACTERISTICS		
APPLICATION	Spray (conventional, airmix, airless and electrostatic) either horizontally or vertically	
THINNING	Ready to use. If thinning is required, use 5-10% of tap water	
DRYING TIME (200 mm at 20°C)	Touch dry	4 h
	Through dry	8 h
	Stackable	24 h
	Sandable	24 h
FORCED AIR DRYING (200 mm at 20°C)	Overcoatable	24 h
	Through dry	150-180'
	Stackable	on oven exit
	Sandable	16 h
AREA OF USE	Overcoatable	16 h
	Door and window frames and any other wooden item exposed outdoors	

## KEY BENEFITS:

- . Completely transparent finishing system
- . Long lasting exceptional durability against UV and water
- . Early water stop resistance
- . 1k waterbased system
- . Can contribute to VOC reduction programme
- . Suitable for both softwood and hardwood
