AT23\*\*/BB white

# HYDRO CONVERTER FOR INTERIORS AT23\*\*/XX

The best choice for high quality furniture where the best performance and aesthetics are a must.

**AT23\*\*/NN (clear)** and **/BB (white)** is a 2 pack, non-yellowing waterborne topcoat featuring excellent surface hardness and chemical resistance, excellent smoothness and vertical hold.

This new system is particularly recommended for all the situations where high scratch resistance is required.

The matting system is the best in terms of low nail polishing. A new generation of waxes positions **AT23\*\*/XX** among the best waterbased paint for these properties and is comparable to polyurethane systems in terms of smoothness, physical and chemical resistance.

**AT23\*\*/XX** can be tinted with Sayerlack waterbased pastes of series XA2006/XX (up to 4% for /BB and up to 8% for /NN); the formulations are in the WOOD COLOR PLUS formulation guide.

<b>AREA OF USE</b>	Flat parts, picture frames, skirting board, matchboards	
<b>METHOD OF USE</b>	Spray: conventional, air mix, airless and electrostatic; manual or automatic	
<b>MIXING PROCEDURE</b>		<b>BY WEIGHT (kg)</b>
